- MAX. 99 CLERKS
- 4 X RS232C PORTS STANDARD

Sharp's ER-A280N electronic cash register dramatically improves your business. The ER-A280N offers a compact and unique modern design with A4 size footprint and is therefore perfect for small general merchandise, convenience, grocery and speciality stores.

With the multi-line LCD operator display the ER-A280N provides users convenience by automatic change from 4 to 8 line display and allows the display of 16 character article texts. Selection via the LCD display menues realizes smooth and easy access to functions. Upon key selection an immediate journal view for each receipt is done. The Electronic journal function helps to conserve paper and reduces costs.

Easy to use and understand, the ER-A280N speeds up sales and shorts customer waiting time. The scanning facilities combined with the unknown EAN article entry and price inquiry function assure correct entries and reduces inventory losses. Commission sales, age verification possibility per article and sophisticated promotion functions are standard retail features at the ER-A280N. Apart from the detail daily or monthly reports the SD card functionality allows to store company data separately on SD card.
