TESTS CARRIED OUT: Radiated Emissions

EMISSIONS CLASS: Class B

TEST RESULTS: Measured as Compliant
(Measurement uncertainty as per RF109 current issue)

*Specification EN 55032:2015 +AC:2016-07 +A11:2020 +A1:2020 falls under the Element Materials Technology flexible UKAS scope of accreditation, which assumes temporary accreditation against the reported edition, until formal acceptance by the laboratories accrediting body 0026 UKAS scope of accreditation. During this intermediate period, Element Materials Technology considers itself UKAS accredited for the listed standard.

The results herein relate only to the particular samples of equipment tested and the specific tests performed, as detailed above, and in accordance with the contract. Full details of test results, modifications and marginal results are held by Element Materials Technology Warwick Ltd. The quality control arrangements are in accordance with our UKAS accreditation. This laboratory is accredited in accordance with the recognised International Standard ISO/IEC 17025. This accreditation demonstrates technical competence for a defined scope and the operation of a laboratory quality management system (refer joint ISO-ILAC-IAF communiqué dated April 2017). No representation or warranty is given that the tests performed under the terms of contract constitute, in themselves, a sufficient programme for the client's purpose, nor that the client's equipment is suitable for any particular purpose, nor that any approval has or will be granted by Element Materials Technology Warwick Ltd or any other body. The contents of this certificate shall not be reproduced, except in full, without the written approval of Element Materials Technology Warwick Ltd.
