Terms and Conditions of Registration

1. The registration by Enterprise Singapore, the Safety Authority, is pursuant to the Consumer Protection (Safety Requirements) Regulations or any amendment thereto. The registration does not absolve the Registered Supplier of any liability to any person in respect of the product.
2. The registration is hereby granted to the named Registered Supplier and is valid only for the product identified in the Registration. The Registration is NOT TRANSFERABLE.
3. The registration of any controlled goods shall be valid for a period of 3 years or the period of validity of the Certificate of Conformity of the controlled goods, whichever is the shorter period, and may be renewed.
4. Any application for renewal of registration of any controlled goods shall be made not less than 3 months before the registration of the controlled goods expires.
5. The product to which the registration applies must meet the relevant safety standards. Registered Supplier shall ensure that the registered model is manufactured according to the approved design (type).
6. The Registered Supplier and the manufacturer are expected to implement their own quality control system to ensure the continuous compliance with the Safety Standards for their mass production.
7. The Registered Supplier shall keep a technical file for a period of not less than 10 years after the registration of the registered controlled goods expires or is deemed to be withdrawn under regulation 24.
8. The technical description of the product in the Certificate of Conformity which serves as basis for registration must be identical to those documents in the technical file. Otherwise, the registration shall be considered as invalid.
9. A Registered Supplier shall maintain a technical file on each of the controlled goods which he registers with the Safety Authority, which shall include documents and information such as Certificate of Conformity, Test Reports, Test Certificates, Photographs and Instruction Manual, and shall make available the said technical file to the Safety Authority within 7 days of receipt by the Registered Supplier of a request from the Safety Authority for such technical file.
10. The Registered Supplier shall print or affix the Safety Mark on the registered controlled goods. If, however, the registered controlled goods are of such nature as to prevent the goods from being so marked, the Safety Mark may be affixed on the packaging of the registered controlled goods.
11. The Safety Authority may require the Registered Supplier of the registered controlled goods to provide to it, free of charge, samples of the registered controlled goods, and if deemed necessary by the Safety Authority, to have the registered controlled goods tested, at the Registered Supplier's expense, to check compliance to the relevant safety standards.
12. The Registered Supplier shall indemnify the Safety Authority fully against any loss or damages suffered by the Safety Authority arising from or as a result of registering the product of the Registered Supplier.
13. The Registered Supplier shall notify the Safety Authority of any change to the name of the Registered Supplier and any change to such of its particulars as the Safety Authority may require not less than 2 weeks before such change.
