Especially for independing retailers a cashregister should bring commercial know-how with it. The features of the XE-A177BK are realised for this requirement. The clear, backlit LCD operator display provides high visibility allowing clerks to view items, prices and other information.

Equipped with a SD card slot which is ideal for to save various kinds of data including daily sales and electronic journal data to a SD memory card in order to manage these data on a computer via Excel application.

The electronic journal stores up to 9.000 lines of transaction data and helps to conserve paper and reduce costs. For easy reference previous entries can be viewed on the operastor display. Up to 25 clerks may have access via code entry to up to 99 departments.

Open price entries offers the opportunity for discount or special sales activities. The enhanced reporting available monthly, daily or article based allows an overview of the strong and minor strong sales times and products.
